Public Policies and Procedures for Campground Operations

- Properties shall rent to first-come first-serve campers (also known as walk up or local sale rentals, hereafter, referred to as local sales)) if available for that night. Due to the Internet reservation system, available sites rented for one night only may not be available the next day. Therefore, customers need to be aware that available sites may not be available the next day and if possible, they should rent them for additional nights to protect their ability to continue to camp beyond their first night rental. An unavailable site is either one that is occupied or one that will be occupied by a camper that day through a reservation.
- Each group shall register at the control station, property office, with a department representative, or through self-registration (where provided) for each night's camping. The nightly camping fee, to be paid in advance, shall entitle the group to occupy one campsite for one overnight period for each night they have paid the fee.
- An individual may register for a maximum of four local sale sites. Names and addresses of the other individuals who will be occupying the sites must be provided when registering for multiple sites. Individuals renting only one night will not be guaranteed availability beyond the first night due to the Internet reservation system. Internet reservations are 24/7 and sites may be rented the same day up to 12 noon.
- Campers registering by walk up may request a specific site if that site is available.

In this situation, the horse trailer may serve as either the main or the secondary camping unit.**
- Campsites are available on a local sale basis outside the reservation window and through reservations at most properties within the reservation window of May 1 to Nov. 1.
- An individual 18 years old is required to register personally for the group or family with the department's representative at the site. Campers under 18 years of age must be accompanied by an adult (18 years of age or older) or obtain permission from the department's representative on the site. The responsible party registering or reserving a campsite shall remain with the group on the site.
- It is unlawful to locate any camp, tent, trailer, or vehicle at any place except as especially provided, designated or assigned. It is also unlawful to sleep in or occupy between the hours of 11 p.m. to 7 a.m., any camper, tent trailer, or vehicle except where designated by the department or as authorized by a written permit.
- Individuals permitted to enter a property to camp after designated quiet hours and prior to 7:00 a.m. will be charged the normal camping fee for the previous night. Those entering the property after 7:00 a.m. will be registered with the new days' business.
- **Horse Campground only: Horses will be allowed in the horseman's campground only. Campers accompanying horse campers and intending to participate in equestrian activities will be permitted to register for a campsite in the horseman's campground. These campers must purchase at least one horse trail access tag per campsite per night and follow all other established campground rules and regulations. Persons with Llama, mules, and donkeys are restricted to horse campgrounds.**
- Campground occupancy is limited to a period not to exceed fourteen (14) consecutive nights.
